

## CNGci Type 3 Advantages vs. Type 4

- ✓ More Gas During Fast-Fill
  - Thermal conductive aluminum liner dissipates heat of compression during fast-filling
  - Up to 25% more gas when fast-filled
  - Longer Range - reduced range anxiety
  - Reduced Operating Costs - Fewer fuel stops
  - Fills in Hot or Cold Weather - No restrictions
  
- ✓ Superior Safety/Environmental Features
  - Gas-Tight Seamless Aluminum Liner - No gas permeation or leakage into driver area and atmosphere
  - Rigid aluminum liner for maximum protection in side impact
  - Type 3 aluminum failure cracks / tears vs. Type 4 composite failure of bursting
  - Suitable for rugged environments, off-road, mining, construction
  - Shock and Vibration resistant
  - Higher Burst Safety Factor - 3.1 (Type 3) vs. 2.25 (Type 4)
  
- ✓ More Robust / Longer Life
  - Lower diametric expansion - 0.1" (Type 3) vs. 0.75" (Type 4)
  - Excellent for strap mount (no damage)

## Why Choose WFT-FS as Your Supplier?

- ✓ Excellent Customer Support
  - Agile for fast response and problem resolution.
  - Easy access to all personnel including the President for advice and consultation.
- ✓ Flexible to Special Customer Requests and Requirements
  - Accommodate special requests regarding product size and configuration, stocking and shipping.
  - Small or single orders are acceptable for demo projects
  - Flexible production schedule to accommodate faster delivery times.
- ✓ Financially Secure and Established Company with Outstanding CNG Industry Reputation
  - WFT-FS is part of the Winkelmann Group, a \$600MM metal forming company with long-term plans for growth.
- ✓ Superior Manufacturing Processes and Product Quality
  - Based on more than 40 years of metal forming experience.
- ✓ On-Hand Inventory
  - All cylinder sizes in stock and available for fast shipment.
  - Liner stocking programs available for shorter lead-times and JIT delivery.
- ✓ Attractive Pricing from a Lean Organization with Low Overhead Costs
